## **Main Street traffic switch: March 18-19**

THE COLONY, Texas — As part of an effort to keep residents informed, officials with the City of The Colony are in continuous contact with representatives from the Texas Department of Transportation regarding the progress of the Main Street Widening Project.

In addition to lane closures, we feel it important to provide residents with notices of traffic switches because lanes may be configured differently than the last time you drove them. Motorists are encouraged to focus on the roadway in order to avoid accidents from being in the wrong lane.

Upcoming or ongoing switches are listed below. *You may need to refresh your browser to view the most-current document.*

### **Traffic Switch**

**The following roadwork is scheduled for 6 p.m. Friday, March 18, to 8 p.m. Saturday, March 19, weather permitting:**

- shift of southbound lanes of Main Street between Overlake Drive and Stewarts Creek Road to the east, resulting in both north- and southbound traffic travelling on newly paved road across the bridge on Lewisville Lake. *Traffic will be one lane each direction during the shift.*

During construction, the Engineering Department will also post updates and information regarding the overall progress of this project at <http://thecolonytx.gov/Resident/RoadRepairs.html>, including when and where specific work will take place. In addition, updates can be found on the city's social media and in the bimonthly electronic newsletter. If you have additional questions, you may email Director of Government Relations Brant Shallenburger at [bshallenburger@thecolonytx.gov](mailto:bshallenburger@thecolonytx.gov) or call 972-624-3108.
